Gustavo De Moraes, MD, PhD, MPH is an Associate Professor of Ophthalmology at the Department of Ophthalmology at Columbia University Medical Center / New York Presbyterian Hospital in New York City. He sees patients with or at risk of developing glaucoma. His primary research interests are in novel techniques for glaucoma diagnosis, detection of progression, and new treatment modalities, both medical and surgical. Based on his research, Dr. De Moraes has been ranked among the top 10 glaucoma experts in the world.

Dr. De Moraes completed glaucoma fellowship at the New York Eye and Ear Infirmary (NYEEI) under Dr. Robert Ritch, later directing the Glaucoma Research Unit at the Einhorn Clinical Research Center of the NYEEI. He was also Research Associate Professor of Ophthalmology at New York University (NYU). He obtained his Masters of Public Health (MPH) with focus on Biostatistics and Epidemiology from Columbia University and his PhD on Ophthalmic Sciences at University of Sao Paulo.

Dr. De Moraes is co-chair of the Glaucoma Progression Scholars (GPS), past chair of the Associate Advisory Board of the World Glaucoma Association (WGA) and a member of its Education Committee. He is a past member of the Publications Committee of the Association for Research in Vision and Ophthalmology (ARVO). In 2017, he received the American Academy of Ophthalmology (AAO) Achievement Award. Dr. De Moraes serves as reviewer in grant review groups of the National Eye Institute (NEI) of the National Institutes of Health (NIH) and the Glaucoma Foundation (TGF). He is also a past member of the Columbia University Irving Medical Center Institutional Review Board (IRB).

Dr. De Moraes is a member of the American Medical Association (AMA), American Academy of Ophthalmology (AAO), Association for Research in Vision and Ophthalmology (ARVO), American Glaucoma Society (AGS), New York Glaucoma Society (NYGS), Ophthalmic Laser and Imaging Society (OLIS), and World Glaucoma Association (WGA).

He has published over 220 papers in top peer-reviewed journals and has served in the Editorial Boards of some of the journals with highest impact factor in the field of Ophthalmology. He is the Associate Editor of Glaucoma for Investigative Ophthalmology and Vision Sciences (IOVS). He has authored/co-authored 11 book chapters in Ophthalmology and Glaucoma, as well as the Consensus on Medical Treatment and Consensus on Glaucoma Progression of the WGA. He has given over 200 guest lectures worldwide.

Dr. De Moraes' clinical research is funded by the National Institutes of Health (NIH), the Centers of Disease Control and Prevention (CDC), the Glaucoma Foundation (TGF), and Research to Prevent Blindness (RPB).
